Vignesh Kannan

Senior UI/UX & AI Designer

Coimbatore, Tamil Nadu | kvigneshdesign@outlook.com | +91 78712 95334 | linkedin

SUMMARY

I'm a senior UI/UX and AI designer with 8+ years of experience across print, mobile, and web design, with a focus on enterprise healthcare and design systems. I design complex B2B medical-operations applications, build scalable, token-driven design systems for global pharma brands, and build Figma plugins that automate design-system governance and migration. **Recently at Indegene, I worked on design systems and enterprise UX for Boehringer Ingelheim, CLS Vifor, and Bayer**, and I hand off to engineering with the same care I design with, working across both design and front-end execution.

EXPERIENCE

Indegene | Bangalore, India
UI/UX Designer ***May 2022 - Present***

- Worked on design system projects for Boehringer Ingelheim, CLS Vifor, and Bayer, including the BI rebranding built with variables
- Researched, designed, and developed user experiences and interfaces for complex, enterprise-grade applications used in day-to-day medical operations for clients like Boehringer Ingelheim
- Planned and executed user-centered product design for mobile and web-based B2B enterprise products, delivering simple, credible, and intuitive interfaces
- Gathered stakeholder requirements and guided them through the solution process with presentations, wireframes, prototypes, and user experience workflows
- Conducted UX research workshops with product stakeholders and created visual style guides
- Handled end-to-end design across web and mobile, from eliciting user requirements to auditing the applications after development, in an Agile environment
- Earned the Creative Excellence Award 2024 (Silver) at Indegene in the UI UX – Mobile, Web Experience category

Hoffensoft | Coimbatore, India
UI/UX Designer ***Oct 2020 - Jun 2022***

- Led a 5-member team across different projects and technologies, ensuring resource availability and allocation for every project and on-time delivery
- Tracked project performance against short- and long-term goals, shared project plans with clients and staff, and built Smartsheet dashboards for project management and time estimation
- Developed user-friendly design concepts for a new mobile food-ordering application, meeting all client requirements and company procedures
- Created and implemented 30+ original UI designs, sharing drafts with my supervisor to identify potential problems early
- Worked independently and with a cross-functional team, including developers, on UI/UX workflows, mockups, and prototypes for an ideal global solution

Ad2pro Media Solution | Bangalore, India
Production Designer ***Jun 2018 - Sep 2020***

- Handled compliance checks, design, quality checks, and proofreading
- Designed concept promotions and UI animations
- Trained new junior designers and gave feedback on their designs

SELECTED PROJECTS

- **MediSystem AI** – an agentic healthcare design system with patient and doctor experiences, built as a 20-page Figma master file
- **Medora Design System** – an atomic, token-driven design system with page templates and light and dark themes
- **Global Design Check** – a Figma plugin that audits design-system compliance across variables, colors, typography, and components

EDUCATION

Tamil Nadu Open University
M.Sc Computer Science, 2018 - 2020

Hindusthan College of Arts & Science
Bachelor of Computer Application, 2015 - 2018

CIT Sandwich Polytechnic College
Diploma in Instrumentation & Control Engineering, 2012 - 2015

SKILLS

Design: Product Design, UX/UI Design, Interaction Design, Visual Design, Design Systems, Design Tokens, Responsive Design, Typography

AI: Agentic AI Design, AI-Assisted Design Workflows, Figma Plugin Development

Research: Usability & UX Methodology, UX Research Workshops, Requirement Gathering, Design Audits

Engineering & Tools: Figma, Sketch, Adobe XD, Photoshop, Illustrator, InDesign, After Effects, Premiere Pro, Lightroom, HTML, CSS, React, Next.js
